' 20,000 IC credited instantly

02

LIVE ARENA

START THE 3-HOUR GAME

The game runs for exactly 3 hours live. During the game, the market prices of the 15 available stocks keep changing in real-time based on high-volatility telemetry.

03

TELEMETRY & GRAPHS

CHECK THE STOCKS

Explore the 15 available stocks and check their live price, trend graph, sector telemetry, and order details before making your move.

04

MARKET SHOCKS

FOLLOW THE MARKET NEWS

New breaking market news will appear during the game. The news can affect stock prices, so read the news and make your trading decisions carefully.

EQUITY ARENA

GAMEPLAY RULES

05

TRADING DESK

BUY & SELL SHARES

Use your Ignite Points to buy and sell shares.

- **Buy / Sell at Market Price**

Trade instantly at the current live stock price.

- **Place a Limit Order**

Set the exact price at which you want to buy or sell. The order executes automatically when the stock hits your price.

06

PORTFOLIO CONTROL

MANAGE YOUR IC

Keep track of your Ignite Points, stock holdings, and profit/loss. Use your points wisely and decide strategically when to buy, hold or sell.

07

CRITICAL LOCKOUT

FINAL 5 MINUTES (LOCKOUT WARNING)

When the game enters its last 5 minutes, no new trades can be placed. All remaining shares you still own will be automatically sold at the current market price.

08

VICTORY GOAL

WIN THE GAME (CHAMPIONSHIP)

After the 3-hour game ends, the player with the highest final amount of Ignite Points (IC) wins the championship!

'S FREQUENTLY ASKED QUESTIONS (FAQ)

Q: Is there any real money involved in Equity Arena?

No! Equity Arena is a 100% simulated educational trading game. All 20,000 IC points, stocks, orders, and P&L displayed are virtual. No real money is deposited or lost.

Q: How are the winners decided after 3 hours?

At the end of the 3-hour arena, all remaining shares auto-liquidate at market price. The trader with the highest overall Ignite Points (IC) wallet balance wins 1st place!

Q: Can I place Limit Orders during the game?

Yes! You can choose to trade immediately at Market Price or set Limit Orders. Limit orders will execute automatically when the stock hits your target price.

Q: What happens during the Final 5 Minutes?

During the final 5 minutes, a strict trading lockout occurs. No new buy or sell orders can be placed. All open stock positions are automatically liquidated to compute final standings.
